Remote Care for Rising Risk Patients

using Vivify Pathways™

Rising Risk patients are those with conditions or habits that are likely to move into the High Risk category if left unmanaged. They require increased attention, which can be easily automated with **Vivify Pathways +Go**, including customized care plans.

Turn Patients Around.

Mobile App on Patient's Smartphones. By leveraging a patient's existing device, you can create an immediate and lasting path of care.

- A mobile application designed for all popular smartphones
- Easily activated on large scale, initiated with a text message
- Intuitively simple care plan navigation, including elderly
- Incorporates many of the same features as the High Risk solution

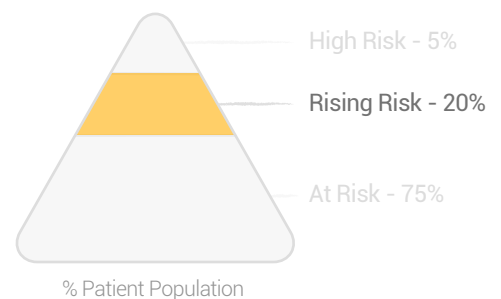

Engaging Active Patients Daily. Custom care pathways can be scheduled to reach the patients anywhere, on any schedule you set.

- Simplified vital data collection, from any standard health device
- Patient-guided health surveys and educational videos
- Optional video conferencing for virtual visits and reimbursement
- Coaching content, changing with each step of the assigned care plan
- Continual automated "health score" providing clarity of current risk
- Management by exception, reducing your clinical workload
